LIFE  **Pittsburgh**
Living Independence For The Elderly

“After my fall and head injury, there were basic things I could no longer do for myself. I was stuck in a nursing home for seven years. LIFE Pittsburgh has helped me to walk and talk again.” - John

What is LIFE Pittsburgh?

LIFE Pittsburgh is an all-inclusive program for people whose health issues interfere with their daily lives but who are capable of living safely and independently with our help. Our coordinated plan of care includes medical, social and daily living support. At LIFE Pittsburgh, older adults are treated with the respect and dignity they deserve. They receive the very best care from dedicated geriatric care professionals without sacrificing their independence. Primary care and community services are provided through the Day Health Center and through our in-home program according to an individual Participant's needs. LIFE Pittsburgh goes beyond simply “treating medical problems” to actually improving *the quality of life* for most of our Participants.

*“We believe that all older adults – not just a lucky few – deserve the highest quality of care from people who are passionate about providing it.”
- Joann Gago, Executive Director*

How Does It Work?

Your LIFE Pittsburgh physician will become your primary care doctor. He or she specializes in the care of older adults with chronic medical conditions. Moreover, your LIFE Pittsburgh physician meets daily with a team of care professionals (your social worker, your dietitian, your therapists, your personal care assistant, and so on) to ensure you are staying in the best possible health. This team approach has been proven throughout the United States to provide the most coordinated, proactive care, so that you can enjoy the best possible quality of life.

“LIFE Pittsburgh gave me a new life and even got me walking with my cane. I love the staff. The food is great. Without LIFE Pittsburgh, I’d be in a nursing home. Instead, they are like a second family. I feel like I could not live without them.” – Richard
